QUESTION

When I am ready to save a file, I want it to default to the same location every time, rather than to the last folder that was opened. How can I do this?

ANSWER

In Home Designer Pro, it's possible to set a default save location that will open when you save a plan for the first time.

To set a default Save As location

1. Navigate to **Edit> Preferences** ⬛P if you're on a Windows PC or **Home Designer> Preferences** ⬛P if you're on a Mac.

2. Click on the NEW PLANS panel, select the **Use This Folder** radio button, and then click the **Browse** button to set the file path you would like to use to open and save files to.

3. Once the desired file path is set, click **OK** to confirm the change and close the dialog.
