QUESTION

I would like to export my currently displayed screen to send to someone or to show a problem to Technical Support. How can I do this?

ANSWER

If you want to export an image of your plan or a 3D camera view in Chief Architect or Home Designer, you can do so using the Export Picture option in the software. If you need to create a screenshot image of an error or warning message, or need to create a screenshot of other details on your screen to send to Technical Support for troubleshooting purposes, then please see the appropriate resource for your operating system below.

To export a picture from Home Designer or Chief Architect

1. Select **File> Export> Export Picture** .
2. In the **Export Picture** dialog that displays, specify your desired image properties, then click **OK**.
3. In the next dialog that appears, choose an easy to find location to save the file to, provide a descriptive name, then click **Save**.

To create a screenshot image

- **Windows** - <https://support.microsoft.com/en-us/help/13776/windows-use-snipping-tool-to-capture-screenshots> (<https://support.microsoft.com/en-us/help/13776/windows-use-snipping-tool-to-capture-screenshots>)
