QUESTION

How do I create a wine rack inside of a cabinet?

ANSWER

A wine rack is easy to create using a cabinet and the specialty storage objects located in the Core Catalogs section of the library.

In addition to creating a custom wine rack using a cabinet, you can locate additional wine accessories by accessing the Wine Cellar Items (https://www.chiefarchitect.com/3d-library/index.php?r=site/detail/778) Bonus

Catalog, the Wine Racks America® (https://www.chiefarchitect.com/3d-library/index.php?r=site/detail/1034) Manufacturer Catalog, and the Wineracks.com (https://www.chiefarchitect.com/3d-library/index.php?r=site/detail/799) Manufacturer catalog. For more information on downloading additional library catalogs, please see the Related Articles section below.
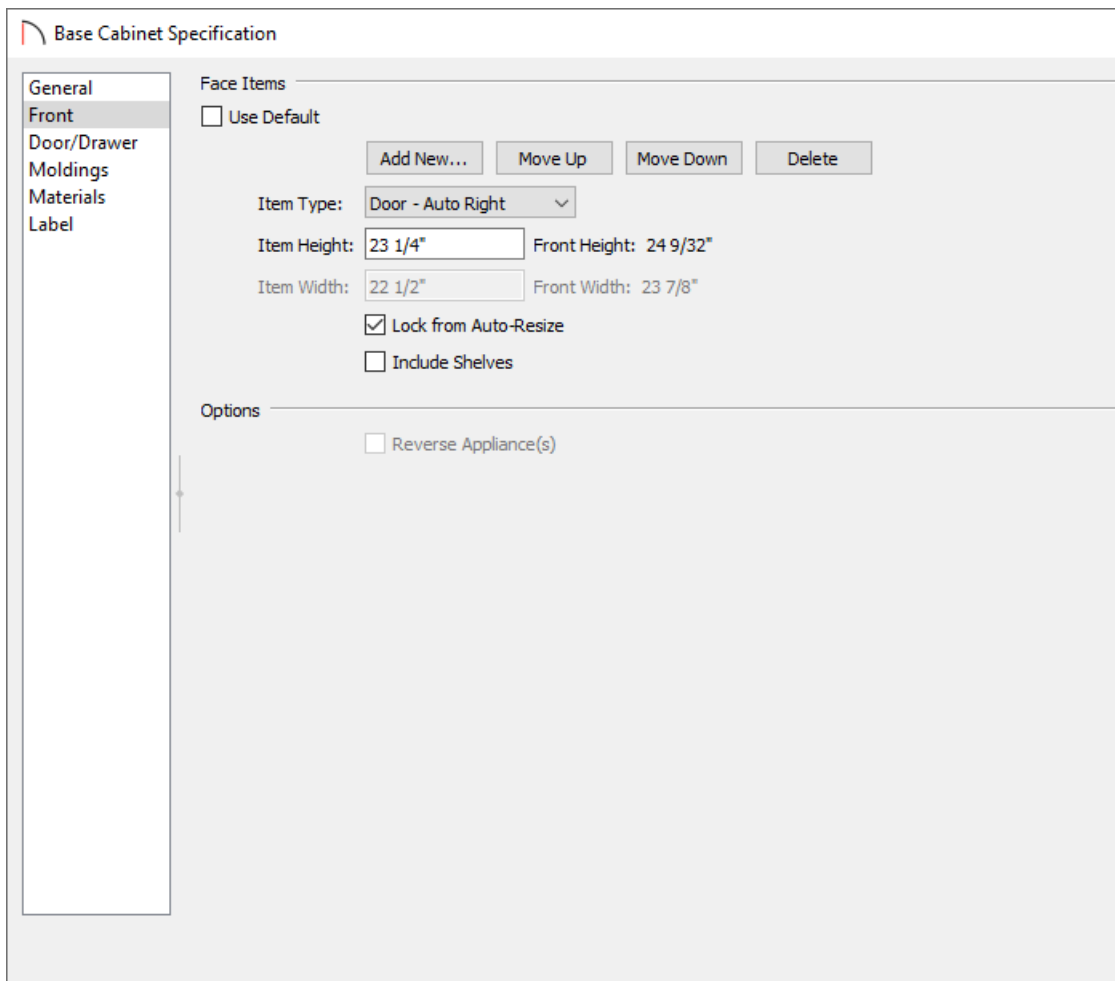

To create a wine rack

1. Select **Build> Cabinet> Base Cabinet** ⊞. then click in your plan to add the cabinet.

2. Using the **Select Objects** ⌖ arrow tool, select the Base Cabinet and click on the **Open Object** ⊓ edit tool.

3. On the GENERAL panel of the **Cabinet Specification** dialog that displays, set the **Width**, **Height**, **Depth**, and **Floor to Bottom** values to your liking.

4. On the DOOR/DRAWER panel:

   o Click on the **Library** button next to Door **Style** and in the **Select Library Object** dialog expand the list for **Cabinet Doors, Drawers, & Panels** and navigate to the **Specialty Storage** folder, where you will be able to choose an object such as a **Plate Rack** or **Wine Rack**.

   o If your cabinet currently has a handle or knob, use the Door Handle**Style** drop down menu to change it to **None**.

5. Select the Fʀᴏɴᴛ panel:

- Click on the door area in the preview panel to modify it.

- If you would like to lock the size of the wine rack face item, select the wine rack door face item using the preview panel, then check the **Lock from Auto-Resize** box.

- To remove the shelves in Home Designer Suite and Architectural, deselect **Include Shelves**.

- In Home Designer Pro, click on the **Specify** button next to the Shelves section to open the **Cabinet Shelf Specification** dialog. Select the **Manual** radio button at the top, then specify the value next to **Number of Shelves** to be **0**.

Cabinet Shelf Specification

Shelf Management
- ○ Automatic
