QUESTION

I have created a 3D camera view of my design, but now I don't know how to return to my 2D floor plan view. How can I do this?

ANSWER

Switching between a camera view and a floor plan view can be accomplished by selecting the tabs at the top of the Home Designer window or by accessing the Window menu.

To switch between camera and floor plan views

1. Located under the toolbars, left-click on the **Tab** for the view that you would like to switch to.

2. Alternatively, you can select the **Window** menu and select the appropriate view in the list at the bottom to

Window	v Help	
🔍 za	oom	Shift+Z
	oom Out	Num+-
🕄 Zo	oom In	Num++
	ndo Zoom	
🔀 Fi 💢 Fi	l Window Building Only	
💢 Fi	l Window	F6
💮 Pa	in Window	Р

switch to that view.

The window tiling options allow you to display multiple views side by side in the Home Designer window. Tiling allows you to see the results of changes made in a floor plan view directly in 3D or vice versa, and can also be useful for copying objects from one plan to another

- Select **Window> Tile Horizontally** to display both views in a horizontal orientation.
- Select **Window> Tile Vertically** to display both views in a vertical orientation.
