QUESTION

While evaluating the trial version, I ended up creating a full plan. How do I activate the trial and not lose my work?

ANSWER

In order to activate a Chief Architect or Home Designer Trial version, you must first purchase a full version product key. Follow the steps below to purchase a key and activate the trial version.

Trial versions can only be converted to full programs of the same title.

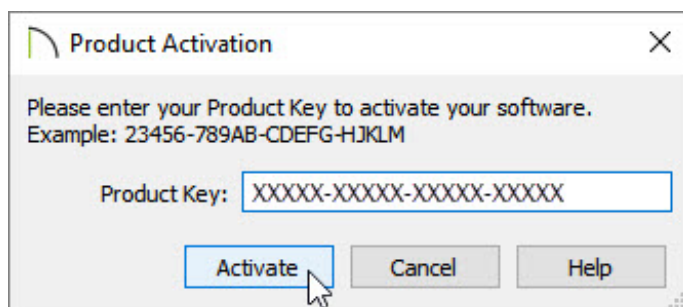

For example, the Home Designer Professional trial cannot be converted to a full version of Home Designer Suite. This means plans started in the trial version of Home Designer Professional cannot be saved to work in the full version of Home Designer Suite.

To purchase a Full Version product key

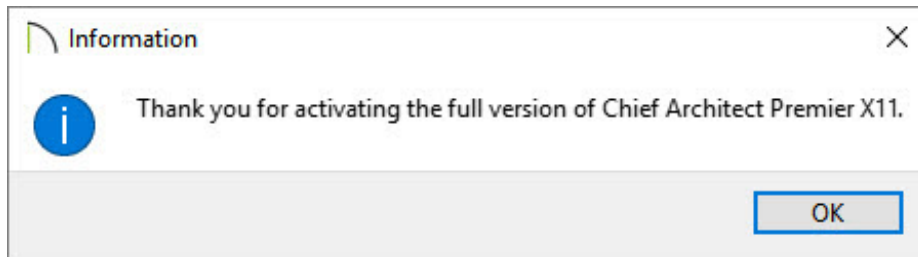

1. From within the Trial Version, click **Help> Purchase Chief Architect / Home Designer...**  to open a web browser to the *Buy Now* web page.
2. Choose your desired options on the product selection, billing and shipping pages. When the order is complete you will receive an email with your login information.
3. With this information, you will be able to log into your **Chief Architect Account** and retrieve your Full Version Product Key from the Digital Locker.

To activate the Trial Version with a Full Version product key

1. Once you have a Full Version Product Key, navigate to **Help> Activate Full Version** within the Trial version.
2. In the **Product Activation** dialog, input the Full Version Product Key that you received after purchase and click the **Activate** button.

3. You will receive a confirmation message thanking you for activating.

4. The Trial version installed will be converted into the full purchased version and you will no longer have limitations on saving, printing or exporting.
