

Mac Models Compatible with Chief Architect X16 and Home Designer 2025

Reference Number: **KB-03167**

Last Modified: **October 2, 2024**

The information in this article applies to:

QUESTION

Which Mac models are compatible with Chief Architect X16 and Home Designer 2025 products?

ANSWER

A listing of all supported Apple Mac models that are compatible with the current version of Chief Architect products can be found below. Each model that is listed begins with the Model Name and is followed by its *Model Identifier*.

Note: To identify the model of your Mac, please access the "Locating Your Computer Specifications" resource in the [Related Articles](#) section below. Alternatively, you can access the following Apple resource: [Find your Mac model name and serial number \(https://support.apple.com/en-us/HT201581\)](https://support.apple.com/en-us/HT201581).

Supported Mac Models

16 GB of RAM (unified memory) is a minimum requirement for the current version of Chief Architect products. Please compare your computer specifications with the applicable system requirements resource in the [Related Articles](#) section below.

Also, please access our [Known Incompatibilities \(https://www.chiefarchitect.com/products/known-incompatibilities.html\)](https://www.chiefarchitect.com/products/known-incompatibilities.html) page to view a list of software and hardware incompatibilities.
