

Manually Installing Core Catalogs for Home Designer

Reference Number: **KB-03224**

Last Modified: **August 5, 2026**

QUESTION

I am unable to download the Core Catalog files for my Home Designer 2026 or 2027 software. How can I manually install them?

ANSWER

If you continuously encounter an error when downloading the Core Catalogs while in your Home Designer program, you may need to follow the steps below to download the necessary library files to your computer and install them manually.

Note: If you're using Home Designer 2025 or a prior version, please access the appropriate resource for your product in the [Related Articles](#) section below.

It's recommended to create a folder on your computer, in an easy to access location, such as your Desktop, where you can save these files to. If you do not do so, then they will download to the default file location your web browser is set to, which is typically your Downloads folder.

To download the necessary library files

1. One-by-one, right-click the following links and choose **Save link as** (or the appropriate counterpart for your web browser) to save the file to an easy to access location, such as to a new folder on your Desktop.

Note: You must be signed in to your Chief Architect online account to save/download the library files linked in this resource.

2. Download and save these **Core Libraries** for Home Designer 2027:

- CoreBackdrops.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/672&version=15>)
- CoreMaterials.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/667&version=15>)
- CorePatterns.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/1099&version=15>)
- CoreShapes.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/663&version=15>)
- HDPACoreArchitectural.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/738&version=15>)
- HDPACoreMEP.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/742&version=15>)
- HDPALCoreInteriors.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/739&version=15>)
- HDPALCoreExteriors.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/740&version=15>)
- HDPALCorePlants.calib (<https://www.chiefarchitect.com/3d-library/index.php?r=site/download/741&version=15>)

[Click here to go to the Core Libraries for Home Designer 2026.](#)

To install the Core Catalogs

1. Open the Home Designer program if it's not already open.
2. Navigate to **Library> Import Library** from the menu.
3. In the **Import Library Data** dialog that opens, select the first catalog listed, hold down

the **Shift** key on your keyboard, select the last catalog listed to group select all of the files, then click **Open**.

- Once complete, an Information dialog will display stating "The Library Import has completed successfully. [NUMBER] items have been imported." Click **OK**.

Legacy Version Libraries

Home Designer 2026

Download and save these **Core Libraries** for Home Designer 2026:
